

GIBSON ISLAND

Maryland 21056

Past the small stone gate house and along the picturesque causeway, the drive onto Gibson Island feels like a portal to another world as your cares seem to melt away. Private, secluded, and one of the most desirable locations in Maryland, this scenic oasis beats to a slower drum: quiet and wooded with tranquil beaches, a 9-hole golf course, 2 Marinas and incredible vistas of the Chesapeake to one side and the Magothy River to the other.

Welcome to the Island!

Gibson Island measures three miles long by two miles at its widest part. Beautiful views look out over the rippling Bay with Baltimore Light silhouetted in the distance.

One of the most desirable locations on the East Coast, the gated community of Gibson Island is located on the western shore of the Magothy River. Less than an hour from Annapolis, Baltimore and Washington, DC, this conveniently located respite maintains a quiet, serene atmosphere. With 7 miles of shoreline and approximately 1,000 acres, much of the island is dedicated to natural woods, open space, wildlife sanctuaries and recreational activities.
